Step 3:

Then it will redirect you to a home page of your sendgrid account.

The image shows the Twilio SendGrid dashboard. On the left is a sidebar with a user profile for 'sanjai.hartikar' and a list of navigation items: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, and Settings. The main content area has a 'Welcome, Sanjai!' message and instructions to follow steps to get up and running. A large blue banner reads 'Send your first emails with Twilio SendGrid'. Below this is a section titled 'Create a sender identity' which explains that a sender identity is the 'from' email address. It offers two options: 'Create a Single Sender' (highlighted with a yellow box) and 'Authenticate a domain instead'. To the right, there is a diagram showing an email client interface with a 'Your Business' sender identity and a 'Learn more about this' link.

Step 4:

Finally, you have created your account and now you can access the sendgrid account.
